

NOTICE OF PUBLIC INFORMATION-PUBLIC NOTICE

1. **Name of the Agency:** Arizona Health Care Cost Containment System (AHCCCS)
2. **The topic of the public information notice:** AHCCCS Fee-For-Service (FFS) proposed rates for designated fee schedules to be effective for dates of service beginning September 1, 2020.
3. **The public information relating to the topic:**
 - a. This Notice of Public Information describes changes to the Arizona Health Care Cost Containment System (AHCCCS) Fee-For-Service (FFS) rates to be effective September 1, 2020. The AHCCCS Administration is making changes to the FFS rates specified in this Notice to assure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available at least to the extent that such care and services are available to the general population in the geographic area. The estimated increase in FFS payments as a result of the rate changes is expected to be approximately \$30,700. More detailed information regarding the proposed fee schedule changes is included below.

AHCCCS is implementing a 10% rate increase to the following codes:

Vaccine Codes	
<u>CPT</u>	<u>CPT Description</u>
90630	Influenza virus vaccine, quadrivalent (IIV4), split virus, preservative free, for intradermal use
90653	Influenza virus vaccine, inactivated, subunit, adjuvanted, for intramuscular use
90655	Influenza virus vaccine, trivalent (IIV3), split virus, preservative free, 0.25 mL dosage, for intramuscular use
90656	Influenza virus vaccine, trivalent (IIV3), split virus, preservative free, 0.5 mL dosage, for intramuscular use
90657	Influenza virus vaccine, trivalent (IIV3), split virus, 0.25 mL dosage, for intramuscular use
90658	Influenza virus vaccine, trivalent (IIV3), split virus, 0.5 mL dosage, for intramuscular use
90660	Influenza virus vaccine, trivalent, live (LAIV3), for intranasal use
90662	Influenza virus vaccine (IIV), split virus, preservative free, enhanced immunogenicity via increased antigen content, for intramuscular use
90672	Influenza virus vaccine, quadrivalent, live, for intranasal use
90673	Influenza virus vaccine, trivalent (RIV3), derived from recombinant DNA, hemagglutinin (HA) protein only, preservative and antibiotic free, for intramuscular use
90674	Influenza virus vaccine, quadrivalent (cciiV4) derived from cell cultures, subun
90682	Influenza virus vaccine, quadrivalent (riv4), derived from recomb
90685	Influenza virus vaccine, quadrivalent, split virus, preservative free, when admi
90686	Influenza virus vaccine, quadrivalent, split virus, preservative free, when admi
90687	Influenza virus vaccine, quadrivalent (IIV4), split virus, 0.25 mL dosage, for intramuscular use
90688	Influenza virus vaccine, quadrivalent, split virus, when administered to individ
90689	Influenza virus vaccine quadrivalent (IIV4), inactivated, adjuvanted, preservative free, 0.25 mL dosage, for intramuscular use
90694	Influenza virus vaccine, quadrivalent (aiiv4), inactivated, adjuvanted, preserva
90756	Influenza virus vaccine, quadrivalent (cciiV4), derived from cell cultures, subu
Q2034	Influenza virus vaccine, split virus, for intramuscular use (Agriflu)

Administration Codes	
<u>CPT</u>	<u>CPT Description</u>
90471	Immunization administration (includes percutaneous, intradermal, subcutaneous,
90472	Immunization administration (includes percutaneous, intradermal, subcutaneous,
90473	Immunization administration by intranasal or oral route; one vaccine (single or
90474	Immunization administration by intranasal or oral route; each additional
90460	Immunization administration through 18 years of age via any route of administration
90461	Immunization administration through 18 years of age via any route of administration
G0008	Administration of Influenza Virus Vaccine

For CPT codes related to the administration of the influenza vaccine, modifier SY needs to be used when billing that code to receive the 10% rate increase.
