# Audio Settings

The screenshot shows the Zoom application settings window, specifically the Audio settings. The left sidebar contains various settings categories: General, Video, Audio (highlighted in blue), Share Screen, Virtual Background, Recording, Statistics, Keyboard Shortcuts, and Accessibility. The main panel is titled 'Settings' and is divided into two sections: 'Speaker' and 'Microphone'. The 'Speaker' section includes a 'Test Speaker' button, a dropdown menu for 'Built-in Output (Internal Speakers)', an 'Output Level' indicator, and an 'Output Volume' slider. The 'Microphone' section includes a 'Test Mic' button, a dropdown menu for 'Built-in Microphone (Internal Micropho...', an 'Input Level' indicator, an 'Input Volume' slider, and a checked checkbox for 'Automatically adjust microphone volume'. Below these sections are several checkboxes: 'Use separate audio device to play ringtone simultaneously' (unchecked), 'Join audio by computer when joining a meeting' (checked), 'Mute microphone when joining a meeting' (unchecked), and 'Press and hold SPACE key to temporarily unmute yourself' (checked). A white arrow points to the 'Join audio by computer when joining a meeting' checkbox. At the bottom right of the settings panel is an 'Advanced' button.

 A small glass vial labeled 'VACCINE COVID-19 CORONA VIRUS' is surrounded by several red, spiky virus particles. A white plus sign is positioned to the right of the vial.	 A white van is shown in motion, driving on a road with a blurred background of greenery and a blue sky.	 A collection of white, oval-shaped pills is spilling out of an orange pill container onto a US one hundred dollar bill.	 A wide-angle view of a city skyline at dusk or night, with mountains visible in the background under a clear sky.	 A woman with long dark hair is sitting at a table, looking at a blue folder while a young child sits across from her, holding a yellow pencil.	 A black and white photograph of a woman in profile, looking down at a baby who is lying down next to her.

# American Rescue Plan Act of 2021 - Section 9817

**10% Increase  
to  
FMAP for  
HCBS**

4/1/21 -  
3/31/22

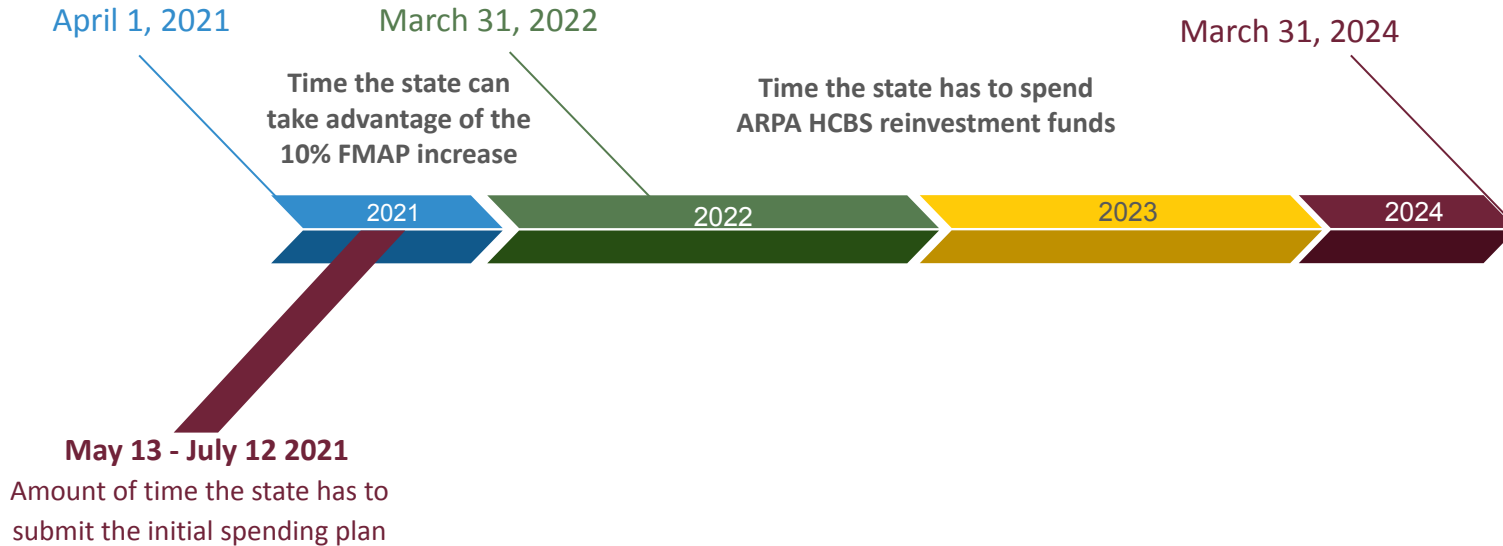

- Provision offers temporary 10 percentage point bump in federal funds for certain HCBS services
- [State Medicaid Director Letter](#) issued on May 13, 2021
  - Services eligible for the enhancement
  - Examples of activities that enhance, expand, or strengthen HCBS
  - Maintenance of Effort requirement
  - Requirement that states submit initial and quarterly HCBS spending plans
    - Initial narrative and spending plan due July 12, 2021

# Key Parameters - ARP/HCBS Provision

- Funding is short-term and must be spent by March 31, 2024
- Broader definition of HCBS - includes services such as home health, personal care services, attendant care services, case management and rehabilitative services (mental health and substance use treatment services)
- Cannot use funds to pay for HCBS available under the Medicaid program as of April 1, 2021
  - Funds must be used to enhance, expand, or strengthen existing HCBS program
- Strategies employed under the plan cannot negatively impact current HCBS program
  - Prohibited from imposing stricter eligibility standards
  - Must preserve covered HCBS
  - Must maintain HCBS provider payments at a rate no less than those in place as of April 1, 2021
- Nothing will be included which creates a long-term funding obligation without a sustainable funding source after March 31, 2024

# ARPA HCBS Funding Timeline

# Funding Enhancement & Reinvestment Opportunity

- AHCCCS estimates it will expend approximately \$3.5 billion on HCBS that qualify for the temporary 10 percentage point FMAP increase (expenses during April 1, 2021 through March 31, 2022)
- Enhanced match rate is expected to increase federal spending on currently covered HCBS by approximately \$350 million during that time to be used as reinvestment funds for the strategies proposed in ARP HCBS spending plan
- Reinvestment funds then leverage additional federal funds = to a total of \$1.6 billion to be spent throughout the period from April 1, 2021 through March 31, 2024
  - Enhance or strengthen Medicaid HCBS
  - Subject to CMS approval and legislative expenditure authority
  - Estimates subject to change due to various factors

# Member Focus

- Seniors
- Individuals with Disabilities
- Individuals Living with Serious Mental Illness
- Individuals Accessing General Mental Health and Substance Use Services
- Children with Behavioral Health Needs

# Funding Priority #1:

## Strengthening and Enhancing Arizona's Home and Community Based System of Care

- Expanding access to care from a well-trained, highly-skilled workforce
- Funding local initiatives and community-specific programming to improve member health
- Assessing member engagement and satisfaction to better understand needs, prevent abuse and neglect, and identify opportunities for improvement
- Empowering parents and families to provide care and meet the needs of their children
- Promoting stabilization, access to supportive services, and workforce retention/consistency to improve member outcomes

## Funding Priority #2:

### Advancing Technology to Support Greater Independence and Community Connection

- Utilizing new technology to promote care coordination and seamless communication
- Creating tools that strengthen quality monitoring and prevent abuse and neglect
- Supporting individual self-sufficiency by connecting members to technological tools and resources that promote independence

## Grants Administration

The Division of Grants Administration (DGA) pursues, implements, and oversees all grants administered by the agency.

Many of the grants DGA oversees are federal grants, including the Substance Abuse Block Grant (SABG), the Mental Health Block Grant (MHBG), other federal grants related to prevention and treatment services, as well as discretionary grants including PPW-PLT, emergency COVID-19 grants, crisis counseling, the State Opioid Response grants. DGA manages day-to-day federal grant activities, including research and writing, implementation and contract management, and oversight and monitoring.

In addition, the DGA finance team manages the daily Non-TXIX and grant financial processes for state appropriated, non-appropriated, and federal grant funds along with AHCCCS housing projects and requests.

DGA collaborates with other AHCCCS divisions to identify best practices and services for individuals in need of mental health and substance use disorder services.

# SAMHSA Recommendations for Use of Funds

- Partnership development throughout the continuum of care
- Comprehensive 24/7 crisis continuum for children
- Increased outpatient access, including same day or next day appointments
- Improve information technology infrastructure
- Adoption and use of health information technology
- Digital platform consideration
- Advanced telehealth opportunities to advance crisis services for hard to reach locations

# SAMHSA Recommendations for Use of Funds

- Implementation of an electronic bed registry
- Support for crisis and school-based services that promote access to care for children with SED
- Development of medication-assisted treatment (MAT) protocols to assist children and adults who are in crisis
- Expand Assisted Outpatient Treatment (AOT) services
- Develop outpatient intensive Crisis Stabilization Teams to avert and address crisis
- Technical assistance for the development of Certified Community Behavioral Health Clinics (CCBHC).

# Substance Abuse Block Grant (SABG)

# SAMHSA Recommendations for Use of Funds

- Develop and expand the use of FDA-approved medications and digital therapeutics as a part of addiction treatment
- Provide increased access, including same-day or next-day appointments, and low barrier approaches, for those in need of Substance Use Disorder (SUD) treatment
- Direct critical resources in expanding broad-based state and local community strategies and approaches in addressing the drug overdose epidemic

# SAMHSA Recommendations for Use of Funds

- Improve information technology infrastructure
- The adoption and use of health information technology to improve access to and coordination of SUD prevention, intervention, treatment, and recovery support services
- Advance telehealth opportunities to expand services for hard-to-reach locations
- Enhance primary prevention infrastructure within the state and communities using the Strategic Prevention Framework planning model

# SAMHSA Recommendations for Use of Funds

- Consider incorporating strategies around adverse childhood experiences to improve substance misuse outcomes among all populations
- Support expansion of peer-based recovery support services to ensure a recovery orientation which expands support networks and recovery services

## Open Discussion, Comments and Questions

# ET3

## Alison Lovell

# What is ET3?

- Emergency Triage, Treat, and Transport (also known as ET3) is a payment model designed to reduce unnecessary transport to emergency departments
- ET3 seeks to remedy the challenges currently faced by EMS providers by providing greater flexibility to ambulance care teams following a 911 call
- AHCCCS ET3 will be effective 10/1/21, subject to CMS approval

# ET3 Components

1. **Transport of Member to Alternate Destination** (e.g. urgent care center, BH provider, or PCP's office)
2. **Treatment in Place/Triage by Qualified Health Care Practitioner** (e.g. medical triage of member via telehealth, with EMS personnel assisting as needed)
3. **Treatment in Place by a Qualified Health Care Practitioner *In Person*** (e.g. EMS personnel provide treatment at member's existing location, using standing orders)

# ET3 Goals

- **Increasing efficiency in EMS system** to more readily respond to/ focus on high-acuity cases, e.g. heart attacks and strokes, by reducing unnecessary transports to Emergency Rooms;
- **Increasing Quality of Care** by:
  - **Providing person-centered care** to deliver appropriate level of care safely at right time/place, while giving members greater control of healthcare through availability of more options;
  - **Encouraging appropriate utilization of services** to meet health care needs effectively;
  - **Reducing unnecessary costs**

# Who Can Participate in AHCCCS ET3?

- Any AHCCCS Registered Emergency Transportation Provider (**Provider Type 06**) has the opportunity to participate in ET3
  - Provider type 06 includes Tribal EMS providers
- Providers will participate by in ET3 by:
  - Adhering to AHCCCS ET3 Policy
  - Billing appropriate codes with proper modifier

# How Does ET3 Impact Members?

- Members have greater control of their healthcare through availability of more options
- Members who do not need an ED level of care currently endure long wait times due to being triaged as a lower priority
  - Alternative destinations should result in shorter wait times prior to members receiving care
  - Reducing unnecessary utilization of EDs should result in shorter wait times for persons needing ED level of care
- Members have greater continuity of care and coordination of care by using their PCP or specialists as opposed to the ED

# How Does ET3 Impact Providers?

- Increased efficiency in the EMS system, by:
  - Allowing EMS providers to provide treatment in place (when clinically appropriate) and reducing unnecessary transports;
  - Allowing EMS providers to transport members to alternate destinations when a different level of care is appropriate, reducing member/provider wait times in EDs;
  - Freeing up EDs for patients who require that level of care;
  - Helping EMS entities establish triage line for low-acuity 911 calls; and
  - Getting ambulances back in service more quickly, to more readily respond to and focus on high-acuity cases
- Permits reimbursement for triage, treat, and/or transport to an alternative site
- Easy for AHCCCS-registered emergency transport providers to participate

# School Based Claiming

Lisa DeWitt, Third Party Accounts Manager

# State Efforts to Transform the School Based Claiming Program

- AHCCCS is pursuing changes to the MSBC program recognizing the growing need to provide health services and support to children where they spend much of their time - in school.
- The transformation will allow school districts to bill Medicaid for health services delivered to all Medicaid-enrolled children, not just those with a special education plan documented by an Individualized Education Program (IEP).
- In order to implement this change, Arizona needs to submit a State Plan Amendment (SPA) to CMS.

# Medicaid School Based Claiming (MSBC) Federal (CMS) Approval Process
