<p>A 16 year old male who is paraplegic secondary to a gunshot wound to the spine is currently enrolled with the Offeror. The member is currently receiving treatment in a Behavioral Health Residential Facility for inappropriate sexual behaviors perpetrated against a sibling and previous exposure to drug and alcohol abuse in the family home. In recent months, he has met all of his treatment goals and is ready for discharge. Due to his history of inappropriate sexual behaviors, the Child and Family Team recommends he not return to the family home. The family has heard about and visited an out of state group home where they would like to see the member placed. Describe how the Offeror will address the appropriate placement and service needs for this member.</p>	1

Rationale:

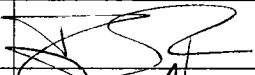

Major Observations:

Offeror presented a comprehensive, person-centered assessment and service planning process that specifically described how it would engage family, providers and case management staff to evaluate needs and options

Offeror described a family-centered approach for discussion of placement options and how it would educate the family regarding challenges related to out-of-state placement, including regulatory requirements

Offeror described its discharge planning process , including a timeline and detailed schedule for discharge planning meetings

Offeror provided a comprehensive description of services to be provided, including specific behavioral health treatment options; offeror described coordination activities to identify providers that meet the accessibility needs of the member and address member's transportation needs

Describe how the Offeror will address the appropriate placement and service needs for this member.</p>	3

Rationale:

Major Observations:

Offeror presented a person-centered assessment and service planning process and provided an example regarding how family would be engaged to review placement options

Offeror indicated that out-of-state placement would not be an option but did not clearly describe how it would educate member's family regarding the challenges and restrictions related to out-of-state placement

Offeror described a post-discharge plan, but did not clearly identify priorities, processes, or timelines

Offeror provided a description of services to be provided, including a detailed description of how member's physical health needs would be addressed, but did not accurately identify available placement options to meet the member's needs
