to (CRF), (SHCA), CMDP, Kellie, Kristen, Kyle, Bernadette, Patricia, Reyna, Rodd, Ryan, Sherry,

In support of the ROPA Exception Processing outlined in the 10/22/2020 Technical Workgroup (reminder of recommended flow attached), AHCCCS will be implementing a table that will capture key information for providers who fall under Types of Providers types not eligible to register with AHCCCS (at this time defined as Pharmacists, Residents and Interns).

This new table will also be added to the bi-monthly ShareInfo Reference Extract files as a new file extract REFER09-R1 (RF7C6) - ROPA Exceptions per the attached file layout. MCO's should see this file for the first time on 2/1/2021.

Please note due to the elements housed on this reference table, that this new extract will have a file size of 320 bites.

We also will be updating the appropriate sections in the Encounter Manual and the Technical Interface Guidelines (TIG) related to the additional file for publication shortly.

If you have any questions, please contact me and/or Julie Nieder at Julie.nieder@azahcccs.gov

Thanks and have a happy holiday!
