While AHCCCS is continuing to review the edit logic and output flows associated with Timeliness Edits R805 and R806, we will be informally releasing to each MCO your respective output files for this months processing.

Our intent is that you complete a review of these reports, validation of information provided and feedback on your review process and any findings. Documentation of you review and validation and resulting findings/feedback should be sent in the form of a high level summary to my attention via email no later than 8/15/2019.

Files will be placed in your individual SFTP folders as outlined below by no later than COB Tuesday 8/16.
