

Behavioral Health-Targeted Investments Incentive Payment Determination Process

Behavioral Health Participants: By Site [SPN]*

¹ Service units	X	² Attested Milestones [weighted]	X	³ Milestone rate	=	Total TI Incentive Payment
----------------------------	---	---	---	-----------------------------	---	----------------------------

1. Number of qualified service units provided during the previous Program Year based on per site [identified by the participating AHCCCS provider ID#] encounters with its contracted AHCCCS MCOs.
2. Milestones attested to and validated, each weighted to a relative value-based level resources needed.
3. Per Service Unit rates are calculated annually and communicated to TI participants with their incentive payment notification.

Available program funding varies each year. See funding distribution table on the [Approved STCs](#) (page 58) for more information.

*For both Primary Care and Behavioral Health: The incentive payment calculated for each site in a participating organization is totaled. The total is allocated to the organization's contracted AHCCCS MCOs proportionate to each plan's service utilization as a percent of the total service utilization paid by the organization's contracted MCOs. AHCCCS instructs each of the organization's contracted plans to make the specified payment to the organization.
