

Member Script

Care1st [*ONECare if you are talking to a ONECare member*] and Blue Shield of California have entered into a definitive agreement for Blue Shield to acquire Care1st [ONECare]. It will take months for the transaction to close, which is expected in the second half of 2015 after we receive regulatory approvals.

For our members, nothing has changed. Your current membership card and benefits remain the same, as does your access to your physicians. You will continue to receive the same high-quality service we have always provided.
