5. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

During the 2018 legislative session, the Arizona legislature enacted A.R.S. § 36-2905.03 which provided that non-contracted behavioral health inpatient facilities (BHIF's) would be reimbursed at 90% of the contracted rate. This rulemaking is an effort to codify and clarify which facilities this statute applies to.

AHCCCS intends to encourage contracting between providers and all contractors to best serve AHCCCS members who require inpatient stays, regardless of whether the BHIF is contracted. The amended rule will encourage competition among BHIF's and Contractors, expand provider networks, promote administrative

efficiencies, and authorize AHCCCS to more efficiently and effectively reimburse BHIF's for inpatient stays. Current federal and state statutory provisions do not prohibit such a change. The proposed rulemaking will also limit AHCCCS Program expenditures to BHIF's in this State by extending applicability of the 90% reimbursement to all AHCCCS Contractors responsible for payments to non-contracted BHIF's. As a result, the rulemaking supports payments to BHIF's that are consistent with efficiency, economy, and quality of care, promoting the fiscal health of the State.

6. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

A study was not referenced or relied upon when revising these regulations.

7. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable.

8. The preliminary summary of the economic, small business, and consumer impact:

This rulemaking creates greater opportunities for contracts between contractors and behavioral health inpatient facilities. Based on these changes, the economic impact of this rulemaking will be a savings due to paying 90% of the reimbursement rate BHIF's stays if they are non-contracting. Since the rulemaking may incentivize urban hospitals to contract at a greater rate, exact savings going forward cannot be predicted; however, it is estimated to be over \$2 million less per year.

9. The agency's contact person who can answer questions about the economic, small business and consumer impact statement:
